

Each day students will receive an email sent to their school account with a picture of the day's tests, locations for students testing, and locations for students not testing if their teacher is unavailable. There are 4 important things students will need to know each day, and all of them are on the sample picture below:

1. Which period all **non-testing students** should report to is in yellow at the top...it's a different period every day.
2. Where **non-testing students** will go if their teacher for that period is giving a test...it's listed in red to the right of the picture.
3. The **tests** being given each day...those are listed in the blue bars in the picture.
4. **All testing students** will find their teacher for the tested subject, which period they have that teacher and go to the Room # under "Location." That is the room where they will take the test from 7:00-9:15 that day.

Friday, April 30 -- 1st Period					120 minute test. 2 hours in 1st period, then follow periods 1-7 like 2 hour delay	Mr. Raborn's 1 st period Econ class and Mr. Cardwell's 1 st period World History class will go to the old gym when you get to school. (37 students total)
