- Middle Valley Elementary

communities and beyond neighborhood zoned schools to ignite the passion for learning in each child.

For the 2019-2020 school year, Hamilton County Schools is opening enrollment to a select group of schools, “My Future Schools,” to which students across the district will be eligible to apply. Opening enrollment to these schools will provide students with a diverse range of options outside of their neighborhood zoned school. These schools will be in addition to the 15 magnet schools that were previously open to all students.

“Choosing a child’s school is one of the most important life decisions for a parent,” said Dr. Bryan Johnson, Superintendent of Hamilton County Schools. “Whether a student has dreams of being a dancer on Broadway, an engineer designing alternative energy transportation of the future, or learning the skills needed for an exciting career in medicine, Hamilton County Schools provides opportunities and options to open doors to the vast possibilities available for your child to find success.”

There are four categories of schools students are eligible to apply for outside of their zoned school: Magnet Schools, Future Ready Institutes, Early College, and Open Enrollment Schools.

More information on the new school options as well as news on application deadlines and open houses can be found by clicking the blue button at the bottom of this article.

## Amazon Future Engineer Comes to SDHS

Soddy Daisy High School has been accepted to the Amazon Future Engineer Program. Amazon Future Engineer is a comprehensive childhood-to-career program to inspire, educate, and train children and young adults from underserved and low-income communities to pursue careers in computer science. Amazon aims to inspire more than 10 million kids each year to explore computer science, fund CS courses for over 100,000 underprivileged young people in 2,000 low-income high schools across the U.S., and award 100 students from underserved communities pursuing degrees in computer science with four-year \$10,000 annual scholarships, as well as internships at Amazon to gain work experience.
